- 0 Detailed Reporting
- 0 Multi-site Control
- 0 Dedicated Support
- 0 Network Ready

ProFuel 2

0 Versatility

- Manages an unlimited number of Computrol cardlocks
- Creates custom fuelling instructions for multiple cardholder groups or accounts
- Graphic screens simplify management of fuel and meter restrictions for cardholders and vehicles
- Maintains individual configuration files for each cardlock in your network
- File access is secured by tiered password levels
- Provides for entry of non-cardlock transactions
- Downloads custom messages to any or all cardholders

0 Inventory Management

- Provides for entry of fuel delivery data
- Provides inventory adjustments based on manual or automated dip recordings
- Provides direct link to popular tank gauging system
- Tracks usage by site, tank, pump and user

0 ProFuel 2 Plus Option for Resellers

- Provides multiple discount levels for Accounts
- Provides multiple tax levels by fuel site
- Generates invoices with customizable messages
- Provides for export files in ASCII or Excel

0 Advanced Reporting

- Employs Crystal Reports to generate a wide range of on demand and date range selectable reports
- Reports detail usage by Account/ Department/Customer
- Listing by Product/Site for each Employee/Driver, and vehicle/Unit
- Tank Activity Reports detail daily inventory changes
- Large List screens provide instant access to dbase records
- Unit Performance Reports detail vehicle consumption rates
- Operator/Unit Lists summarize fuelling frequency of Users
- Database provides for easy creation of custom export files

0 Communications Options

- Supports cabled or wireless link at local sites
- Redirector module supports network link to fuel sites
- Supports telnet, cellular, or satellite links to fuel sites
- Supports internet link to remote sites
- Provides data transfers in ASCII or FTP mode
- Enables baud rates from 2400 to 115mbps to each site

0 Operating System Requirements

- Windows XP or 2000 recommended
- Also runs under Windows 98 SE
- Requires appropriate communication port
- Multiple licence agreement available

Typical Fuel Management System
